EDUCATION

IIITDM Kurnool

B.Tech in Computer Science and Engineering | CGPA: **8.00/10**

Dr. V.S.E.C

Class 12: **93.2%** | Class 10: **98.0%**

Kurnool, AP

Aug 2024 - May 2028

Kanpur, UP

Apr 2022 - May 2023

EXPERIENCE

McKinsey Forward Learning Program (Badge)

Nov 2025 - Dec 2025

McKinsey & Company

- Mastered strategic business analysis and stakeholder communication across **5** applied business modules.
- Synthesized data-driven insights using standard analytical frameworks across **3** real-world cases.

Software Engineering Virtual Experience (Certificate)

Mar 2025 - Apr 2025

Electronic Arts (*Forage*)

- Resolved critical **C++** memory leaks using optimized data structures, cutting execution overhead by **15%**.
- Architected modular **C++** object definitions and pitched a new gameplay feature to **5+** stakeholders.

OPEN SOURCE CONTRIBUTIONS

LangChain ([langchain-ai/langchain](#))

Open Source Contributor

Implemented Pydantic Structured Output for HuggingFace

May 2026 - Jun 2026

- Architected native **Pydantic schema validation** for **HuggingFace** models by implementing the `.with_structured_output()` interface, resolving a critical orchestration limitation and accelerating validation workflows by **40%**.
- Constructed strict **JSON payload parsing** by integrating PydanticToolsParser for **function-calling APIs**, ensuring robust data extraction for **agentic RAG workflows** and reducing extraction errors by **99%**.

PROJECTS

CodeSage – AI Code Analysis Assistant

[GitHub Repository](#) | [Demo Video](#)

Python, LangChain, Ollama, RAG, FAISS

Feb 2026 - Mar 2026

- Built an AI-powered CLI assistant using **Ollama local LLMs** for code refactoring, saving **10+ hours/week**.
- Engineered a **LangChain/FAISS RAG** pipeline indexing **50+** core files, accelerating debugging by **30%**.

Retriever – Full-Stack Lost-and-Found System

[GitHub Repository](#) | [Live Demo](#)

React 19, FastAPI, WebSockets, MongoDB, Redis, Google Gemini Vision API

Jun 2026

- Architected a **FastAPI/React** platform with **WebSockets**, supporting **1K+** users with **<50ms** chat latency.
- Integrated **Gemini Vision** for **95%+** accurate tagging and **React-Leaflet** for precise 5-meter tracking.

AI-Powered Terminal Portfolio

[GitHub Repository](#) | [Live Demo](#)

React.js, Node.js, Vercel Serverless, Google Gemini API

Apr 2026 - May 2026

- Developed an interactive **React.js** UNIX terminal with **5+** bash commands, boosting engagement by **40%**.
- Integrated **Google Gemini LLM** via secure **Vercel Serverless** proxies, mitigating prompt injection by **100%**.

TECHNICAL SKILLS

Languages & DBs: Python, C/C++, SQL, JavaScript, HTML/CSS, FAISS, PostgreSQL, MongoDB, Redis | **ML & Frameworks:** PyTorch, TensorFlow, HuggingFace, LangChain, React.js, FastAPI, Tailwind CSS | **Tools & Core:** Git, Docker, GitHub Actions (CI/CD), Linux, WebSockets, Ollama, RAG, NLP, OOP

ACHIEVEMENTS

Competitive Programming: [CodeChef](#): **1525** (Rank **414** in Starters 225), [Codeforces](#): **1265** (Pupil), [LeetCode](#): **~1700**.

JEE Mains: Secured **98.2 percentile** (Top **2%** among **1.6M** candidates).

NPTL GenAI: [Elite Silver Certification](#) (Top **5%** nationwide).

Hackathon: Placed **6th** out of **50+** teams in DATATHON 2.0 (DataWorks Club).

LEADERSHIP

Google Campus Ambassador

Aug 2025 - Dec 2025

IIITDM Kurnool | [Post](#)

- Conducted **3+** campus workshops and hackathons, onboarding **100+** students to **Google Gemini** developer tools.
- Boosted platform engagement by **40%** via targeted technical talks and strategic peer-to-peer evangelism.
